

John Riddell

ed say, but
past
that?
only
the di
movement

but there is more than this.
let us look beyond....

there is an exploration into new
areas.

The possibility of
discovery exists.

Let us look

Deeper in....

there R superficial ramblings
beneath the surface
of any condition,
songs unsung,
pictures all but forgotten,
moulding us together,
and holding us apart.

room,
tho,
for curiosity and thought.

Growth
within
a
free
Star.

body warm with
feeling,
mind happy in
desire,

Continuing thru that....
